Welcome to our new home.

The New Tower Hospital project was started in 1976 with the groundbreaking on September 27. Exactly three years later, on September 27, 1979 the Cornerstone was placed.

This new Clinical Teaching Facility, with 19 floors and 226 patient rooms, will be equipped with highly sensitive patient monitoring equipment, pneumatic tube system to transport information to and from patient floors, and climate controlled patient rooms.

And when we come to think of it, goodness is uneventful. It does not flash, it glows. It is deep, quiet, and very simple. It passes not with oratory, it is commonly foreign to riches, nor does it often sit in the places of the mighty: but may be felt in the touch of a friendly hand or the look of a kindly eye.
